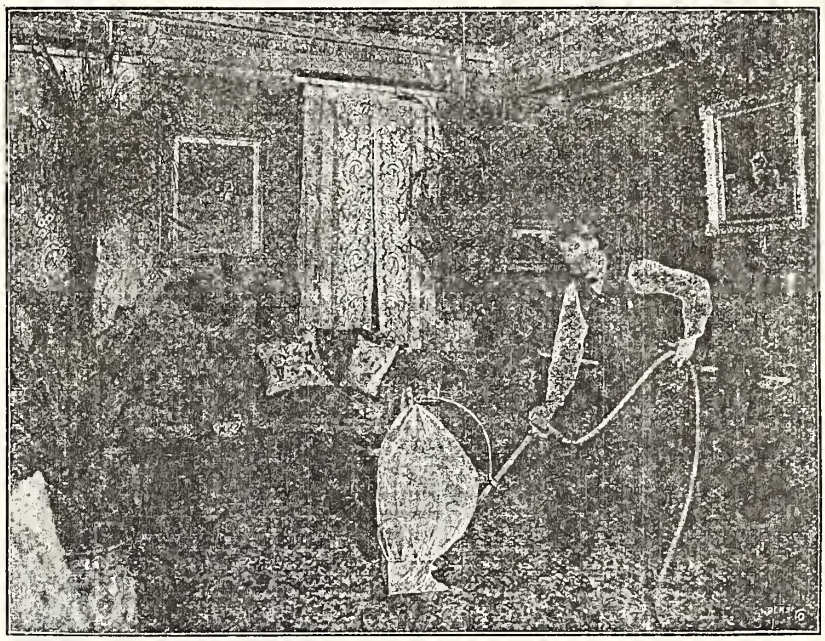
Carpets Cleaned without Removal

The Compressed Air method of Dustless House Cleaning. Sanitary, Speedy, Thorough and Inexpensive. A practical system for doing away with the annoyance incident to the dismantling of apartments for old-style methods of house cleaning.



This picture illustrates the compressed air appliance cleaning carpets at the Herald Square Hotel, New York City. Note that the furnishings of the room are not disturbed.

Carpets are not Taken Up

The dust that is in and underneath them is collected and removed by compressed air.

This system saves damage to carpets which are more or less torn when taken up. It does away with the inconvenience of having apartments upset for several days. We can clean an entire room, including draperies, furniture, walls and carpets, in one hour. It accomplishes results that cannot be obtained by any other method.

This system is recommended by physicians and leading housekeepers. It is used in some of the finest hotels, theatres, stores and private residences in this country.

No more costly than old-style methods.

Results guaranteed.

"Time is the artist of Oriental Rugs if one only knows how to preserve them"

Artistic **repairing** and **weaving** done by native expert artists, with charges according to the amount of labor. Our mode of cleansing Oriental rugs is a Persian secret process. Beating, steam or naphtha cleaning does not take the dirt out, but it sheds the nap, ruins the warp and woof, while our process of renovating not only thoroughly cleanses, but also, what is more important, restores the rugs to their original colors and gives that glossy and silky appearance so much sought after.

Goods called for and delivered free of charge. Oriental rugs bought, sold and exchanged.

WEIGHING STATIONS FOR COAL.

The following scales have been designated by the Mayor as weighing stations for coal and coal vehicles under the provisions of chapter 174 of the Laws of 1897:

Under this law every purchaser of coal in New York City has the legal right to send any load of coal so purchased to any of the following scales to be weighed, provided that the scales shall be no more than one-half mile distant from the place of loading or of the place of delivery of said coal.

The weigh master is entitled to a fee of 15 cents a ton, which must be paid by the purchaser, and which may be given to the driver or sent by any other person.

After the loaded vehicle is weighed and the coal delivered to the purchaser, the driver must take the empty vehicle back to the scale to be weighed, and the weighmaster will then send a certificate of the weight to the purchaser.

STREET AND AVENUE DIRECTORY

OF THE

BOROUGH OF MANHATTAN

Corrected May 1, 1902.

FOR STREET DIRECTORY OF THE BOROUGH OF THE BRONX SEE PAGE 115

Entered according to Act of Congress, in the Year 1902, by
THE TROW DIRECTORY, PRINTING & BOOKBINDING CO.,
In the Office of the Librarian of Congress at Washington.

EXPLANATION.

If you wish to find the location of any dwelling-house or store,—for instance, No. 80 **ALLEN** Street,—on consulting the Street Directory (*see* **ALLEN**) you will observe that 66 Allen is on the right hand of that street and on the corner of Grand, and 86 Allen is on the right-hand corner of Broome; hence the desired number, 80 Allen, will be on the right-hand side of Allen Street, between Grand and Broome.

Or, suppose you are going up Broadway, and wish to take a cross street, so as to call at 236 Hudson Street; on examination (*see* **HUDSON**) of the corner numbers in Hudson Street, you will observe that 230 Hudson Street is on the corner of Broome; hence by passing from Broadway, through Broome Street to Hudson, you are near to the desired number, 236.

NOTE.—For location of apartment houses and office buildings see pages 83 and 86.

STREET AND AVENUE DIRECTORY

OF THE

BOROUGH OF THE BRONX

Corrected May 1, 1902.

FOR STREET DIRECTORY OF THE BOROUGH OF MANHATTAN SEE PAGE 88.

Entered according to Act of Congress, in the year 1902, by
THE TROW DIRECTORY, PRINTING & BOOKBINDING CO.,
In the Office of the Librarian of Congress at Washington.

EXPLANATION.

NOTE.—The following resolution, adopted by the Board of Aldermen March 21, 1882, and approved by the Mayor March 28th, 1882, will explain the plan of numbering the streets north of Harlem River:

Resolved, That the prefix West be given to all cross streets in the Twenty-third and Twenty-fourth Wards lying west of the avenue (known as Broadway), which runs from a point in the vicinity of Kingsbridge to Yonkers, and that the prefix East be given to all cross streets lying east of said avenue and the Harlem River.

That Willis avenue be numbered, commencing at the Harlem River, and that said numbering run continuously through Willis, Melrose, and Webster avenues.

That all other avenues in the Twenty-third and Twenty-fourth Wards, having a generally northerly and southerly direction, be given the same number at the cross streets nearest their southern terminus as that on Willis, Melrose, and Webster avenues at the intersection of said cross street, and then numbered accordingly.

That cross streets at their easterly intersection with said Willis, Melrose, and Webster avenues be given a specific number,* and that all cross streets be numbered therefrom, diminishing toward the west and increasing toward the east, according to their distance from said Willis, Melrose, and Webster avenues.

NOTE.—It has not been possible at the time of this compilation to give the streets *East* of the Bronx River. Although they have been mapped out, no names as yet have been given them. Those streets *West* of the Bronx River have been compiled from the maps of the Board of Public Improvements, giving the old and the new names of the streets in that section.
